

Appl. No. : **Unknown**
Filed : **Herewith**

AMENDMENTS TO THE CLAIMS

1. (Original) A case for a cigarette packet including a lid and a hollow receptacle that is closed at one end, a first portion of the lid being shaped to receive and seat therein a lid portion of the cigarette packet and the receptacle being shaped to receive and seat therein a body portion of the cigarette packet.
2. (Original) The case claimed in claim 1, wherein a second portion of the lid is shaped for insertion into the receptacle to thereby couple the lid to the receptacle.
3. (Original) The case claimed in claim 2, wherein said first portion of the lid is coupled to the second portion of the lid by a hinge.
4. (Currently amended) The case claimed in ~~any one of claims 1 to 3~~, wherein the first portion of the lid resiliently engages the lid of the cigarette packet when the lid of the cigarette packet is seated therein.
5. (Currently Amended) The case claimed in claim 4, wherein the lid is made of a silicone rubber material.
6. (Currently amended) The case claimed in ~~any one of the preceding claims 1~~, including a cap shaped to receive and secure therein the first portion of the lid.
7. (Original) The case claimed in claim 6, wherein the cap is made of stainless steel.
8. (Currently amended) The case claimed in ~~any one of the preceding claims 1~~, wherein the lid of the case includes a flange that is adapted to secure the lid portion of the cigarette packet in a position seated within the lid of the case.
9. (Original) A case for a cigarette packet including a lid and a hollow receptacle that is closed at one end, the receptacle being shaped to receive and seat therein a body portion of the cigarette packet and the lid being arrangable to extend over and cover an open end of the receptacle so as to secure a cigarette packet stored therein.
10. (Currently amended) The case claimed in ~~any one of the preceding claims 9~~, including a wallet that is coupleable to a side of the case.
11. (Original) The case claimed in claim 9, wherein the wallet is coupleable to the case by way of a zipper having a first part secured to the wallet and a second part secured to said side of the case.

Appl. No. : **Unknown**
Filed : **Herewith**

12. (Currently amended) The case claimed in claim 9 ~~or claim 10~~, wherein the wallet includes a plurality of pockets, the pockets being shaped to receive money or cards.

13. (Currently amended) The case claimed in ~~any one of the preceding claims 9~~, including a pocket coupled to a side of the case, the pocket being suitable for storing a cigarette lighter.

14. (Currently amended) The case claimed in ~~any one of the preceding claims 9~~, wherein the lid is made of polymeric material.

15. (Original) The case claimed in claim 14, wherein the lid is made of polyurethane.

16. (Original) A cover for a lid of a cigarette packet, including a first portion being shaped to receive, and seat therein, the lid of the cigarette packet and a second portion for coupling the cover to a body portion of the cigarette packet.

17. (Original) The cover claimed in claim 16, wherein the second section is shaped for insertion into a receptacle containing the body portion of the cigarette packet and is adapted to couple the lid to the receptacle when so arranged.

18. (Currently amended) The cover claimed in claim 16 ~~or claim 17~~, wherein the first section and the second section are coupled together by a hinge so that the lid of the cigarette can be open and closed by rotating the lid about the hinge.

19. (Currently amended) The ~~elover~~cover claimed in ~~any one of claims 16 to 18~~, including a flange that is adapted to secure the lid of the cigarette packet in a position seated within the cover.

20-21 (Cancelled)
